Subject: Rosemont Copper

I've been a resident of Arizona for fifteen years and I've never seen the economy as bad as it is now. It seems like it will only get worse, unless something big like Rosemont Copper comes to town. They've taken every precaution to protect the environment, so there's no reason to prevent them from opening as soon as you can authorize it. You've worked so hard to make sure that everything has been covered and Rosemont's complied every step along the way. Please finalize the process.
